BATHING AREA IN NOWE SIOŁKOWICE

A guarded swimming area beautifully opened in 2019. Sandy beach, clear water and surrounding forested areas make it a very popular summer destination in the Popielów commune. The bathing area has three separate areas: a paddling pool for children, a non-swimmer area with a depth of up to 120 cm and a swimmer's area. Of particular note is the "Open Activity Zone," with a relaxation area, beach volleyball court and outdoor gym. There's also a playground, a small restaurant, a gazebo and even a camping site, making it a perfect place to spend several days.
